

SPECIFICATION AMENDMENTS

Please amend the specification as follows:

Substitute the Title with the following:

CREDENTIAL ROAMING IN ELECTRONIC COMPUTING SYSTEMS

Substitute the Abstract of the originally filed application with the following:

~~Implementations are described and claimed herein to enable credential roaming among a plurality of different computing devices. An exemplary system enabling credential roaming among a plurality of different computing devices~~ may include an event handler to receive event notifications such as, e.g., a client logon. The event handler may invoke a management service in response to receiving an event notification. The management service may include a synchronizing module to synchronize a user's credentials with a remote directory service, such as, e.g., Active Directory, so that the user's credentials are available from any of a number of different computing devices.
